It’s the point where you and your patient meet. The point of contact, where your hands, your eyes, your ears and your skill all work to provide insightful, personal care.

The very point where we at Welch Allyn focus our skill to bring you the best in innovative, affordable healthcare products and solutions that allow you to more effectively diagnose and treat your patients.

At Welch Allyn, “innovation” means providing you with state-of-the-art products designed to meet your need for simplicity and efficiency. So you can see more patients, perform more procedures, and provide more complete on-site care.

It’s the point where what we do best enhances what you do best.

The point of care.

IN THE SPRING OF 2002, WELCH ALLYN RECEIVED AN AWARD FROM THE AMERICAN SOCIETY FOR COLPOSCOPY AND CERVICAL PATHOLOGY (ASCCP) FOR OUR ENDURING COMMITMENT TO DEVELOPING WOMEN’S HEALTHCARE PRODUCTS AND EDUCATION TOOLS. WELCH ALLYN IS A LONG-STANDING FRIEND OF THE ASCCP, SUPPORTING THE ONGOING ADVANCEMENT OF WOMEN’S HEALTHCARE.

KleenSpec® is just a better way to conduct pelvic exams. There’s no autoclaving, no risk of cross-contamination, plus my patients get a more comfortable exam and I get better visibility. Where’s the down side?

— LORRAINE M. GAUTHIER, MD
AURORA MEDICAL GROUP
PORT WASHINGTON, WI

KleenSpec® Vaginal Speculum

Welch Allyn’s single-use speculum eliminate the time and expense of reprocessing and reduce the chance of cross-contamination. Each speculum is designed and manufactured to be durable and reliable.

• 3x stronger than low cost substitutes
• Unique integrated light source delivers halogen lighting directly to the speculum tip—eliminates positioning of an external light source
• Convenient single-use disposable for patient safety
• Excellent visibility—transparent blades allow full visualization of the exam area
• Smooth, newly designed molded acrylic will not pinch or bind tissue for greater patient comfort during exams
• Enclosed light handle prevents blood and body fluids from contaminating the light source
• Stronger, more flexible yoke

#58001 KleenSpec Medium Disposable Specula (Case of 100) (Other sizes available)
#58005 KleenSpec Medium Disposable Specula with Smoke Tube (Case of 80) (Other sizes available)
#78810 KleenSpec Illumination System with On/Off Switch and Transformer

#58000 KleenSpec Small Disposable Specula (Case of 100)
#58001 KleenSpec Medium Disposable Specula (Case of 100)
#58004 KleenSpec Large Disposable Specula (Case of 80)

See page 23 for relevant CPT codes.
KleenSpec® Vaginal Speculum with Attached Sheath

Welch Allyn’s new KleenSpec with Attached Sheath reduces the risk of illuminator contamination.

- Preattached sheath easily pulls down over the Welch Allyn illumination system
- The deployed sheath protects the light cord from cross-contamination
- Unique Welch Allyn high-quality molded acrylic for patient comfort and reliability
- Available in small, medium and large-size speculum

I have enjoyed using Welch Allyn’s disposable specula for over five years. The visualization is far superior to the old metal speculum with goose-neck lamp. I had the opportunity to use the newest speculum with the attached sheath... it was a pleasure. Thank you Welch Allyn.”

— LINDA S. MCCARTNEY, MD, FAAEM
CHICAGO, IL

KleenSpec® Economy Series

Integrated illumination in an economical package.
- No sharp edges with this quality economy line
  - Expendable illuminator can be resterilized 50 times before disposal
  - No need for bulky exam lights

#58601 KleenSpec Medium Economy Disposable Specula (Case of 100)
#78600 Expendable Illuminator

#58000S KleenSpec Small Disposable Specula with Attached Sheath (Case of 80)
#58001S KleenSpec Medium Disposable Specula with Attached Sheath (Case of 80)
#58004S KleenSpec Large Disposable Specula with Attached Sheath (Case of 60)
“I’ve used the Welch Allyn disposable specula for years. They are reliable, provide great visualization and are comfortable for my patients.”

— MYRON LUTHRINGER, MD
SYRACUSE, NY

KleenSpec® Disposable Vaginal Speculum Illumination System

Welch Allyn’s new KleenSpec illumination system is designed with enhanced unique new features.
- Integrated on/off switch close to the task area for operational convenience
- New ergonomic design allows for easy cleaning
- Reengineered, more robust cable for your busy practice needs
- New lamp design with improved lamp life
- Unique integrated light source transmits superior illumination for a more accurate diagnosis
- Eliminates positioning of an external light source
- Provides greater visualization of the exam area

#78810 KleenSpec Illumination System with On/Off Switch and Transformer

See page 23 for relevant CPT codes.

KleenSpec® Illumination Storage System

Store your KleenSpec illumination system in this convenient storage unit that will directly mount in an exam room. Organizes the illuminator, cords, and extra lamps.

#78820 KleenSpec Illumination Storage System
KleenSpec® Vaginal Speculum Dispenser

Welch Allyn’s new Vaginal Speculum Dispenser will conveniently and safely store your Welch Allyn KleenSpec specula in any size practice or setting.

#58014 KleenSpec Disposable Vaginal Speculum Dispenser
767 Integrated Diagnostic Systems

Sphygmomanometer, otoscope, ophthalmoscope, thermometer, probe covers, eartips—all the essential diagnostic instruments and consumables for every Women’s Health exam room, integrated for efficiency and convenience.

- Choice of the revolutionary PanOptic™ Ophthalmoscope or a 3.5v Coaxial Ophthalmoscope
- MacroView™ Otoscope that provides nearly twice the field of view and 30% greater magnification as compared to traditional scopes
- Handle-based rheostats for quick light intensity adjustment
- 767 Wall Aneroid with easy-to-read dial face, certified accuracy, and lifetime calibration program
- KleenSpec® Plus Disposable Specula Dispenser, pre-filled with ear specula
- Optional—767 SureTemp® Electronic Thermometer for highly accurate oral readings in approximately 4-6 seconds

FOUR COMPLETE SYSTEMS DESIGNED FOR WOMEN’S HEALTH, all with MacroView™ Otoscope (#23810), Disposable Specula Dispenser (#52401), and 767 Wall Aneroid (#7670-01):

#76791-2MP Recommended Women’s Health System
PanOptic Ophthalmoscope (#11820)
767 SureTemp Thermometer (#76751)

#76792-2MP

“We purchased the Welch Allyn Integrated Diagnostic System for all our new health care center exam rooms and have been extremely pleased. They’ve added to our efficiency.”

— PAUL LOISELLE, EXECUTIVE DIRECTOR, HEALTH CARE, UNIVERSITY OF NEW ENGLAND
We love the convenience. Being able to automatically collect all the vital signs in a short amount of time really frees up the nurses.  

— LAURIE MCGRAW, RN  
MINONG, WI

Spot Vital Signs®

Take vital signs in seconds with hospital-grade technology that spot checks vital signs easily, accurately and affordably.

- Automatic measurement of adult and pediatric vital signs, including noninvasive blood pressure (NIBP), pulse rate, temperature and SpO2 in approximately 30 seconds
- Lightweight and portable with a variety of mounting options
- All configurations include: NIBP, Pulse Rate and MAP
- Optional—SureTemp® Thermometry and Nellcor® Pulse Oximetry
  - Relevant Pulse Oximetry CPT® codes*: 94760, 94761

#42NTB-E1 Spot with NIBP, Nellcor® Pulse Oximetry, Temperature
#4200B-E1 Spot with NIBP
#420TB-E1 Spot with NIBP and Temperature
#42N0B-E1 Spot with NIBP and Nellcor® Pulse Oximetry
#4200-60 Mobile Stand

CPT® is a trademark of the American Medical Association.
Harvey™ DLX Stethoscope

Developed for precision and acoustic clarity.

- Designed by Dr. W. Proctor Harvey, expert in auscultation
- Optimized for listening to high-frequency heart sounds, including murmurs, clicks, and ejection sounds
- Brass chestpiece provides superior acoustic response
- Bell ideally sized to bridge intercostal space between ribs
- Adjustable binaurals allow you to custom fit your stethoscope for optimal comfort and performance

#5079-325 Harvey DLX with Doublehead
(Shown in black, other colors available)

The stethoscope, in some medical conditions, is a better tool than sophisticated laboratory procedures, including the echocardiogram.

— W. PROCTOR HARVEY, MD
ACC’S FIRST MASTER OF CARDIOLOGY

SureTemp® Plus 690 Thermometer

Welch Allyn’s new SureTemp Plus combines the speed of ear thermometry with the accuracy and reliability of traditional oral thermometry. You can take fast, and approximate 4-second oral temperatures, 10-second pediatric axillary and rectal temperatures, and 1.5-second adult axillary temperatures.

- Interchangeable, removable probe wells to reduce the risk of cross-contamination
- Large LCD displays temperatures in Fahrenheit or Celsius
- Last temperature recall
- Convenient storage for 25 probe covers
- Takes approximately 6000 readings

on 3 AA batteries

#01690-200 SureTemp Plus 690 Thermometer, Oral Probe and Well
#01690-400 SureTemp Plus Thermometer with Wall Mount

Welch Allyn Tycos® DS58 Classic Aneroid

More accurate blood pressure readings and lower lifetime product cost because the DS58 Classic incorporates gear-free, shock-resistant DuraShock™ technology.

- Exceeds the AAMI shock-resistant standard
- Jeweled movement for long life
- Laser-engraved dial face for accuracy
- Durable one-piece cuff had three-year warranty
- Certified accurate to ±3 mm Hg
- Lifetime calibration warranty

#DS58-11CB Hand Aneroid with Two-Piece Cuff and Bladder
#DS58-11 Hand Aneroid with Durable One-Piece Cuff
Exam Light III™

Flexible fiber optic lighting that lets you take brighter, whiter light anywhere without the heat.

- Mounts easily on a wall, stand, or examination table
- Durable fiber optic light pipe bends to almost any position and transmits cool illumination
- Small head leaves clear view of task areas
- Sealed focusing sleeve keeps optics free of dust
- Provides homogeneous spot and variable size
- Ideal for gynecological examinations and minor procedures

#48700 Exam Light III
#48850 Mobile Stand
#48859 Universal Table Mount

Solid State Portable Headlight

Provides illumination precisely where it is needed, with cool, bright light that ensures comfort for both clinician and patient.

- Weighs just four ounces—one of the most comfortable and lightweight headlights available
- Fits inside a shirt pocket and allows the user complete freedom of movement
- Supplies bright, white, shadow-free light for true tissue color

#46070 Portable Headlight with direct power source and charger
#49642 Soft terrycloth headbands—box of 10

MFI Solarc® Headlight Systems

A shadow-free alternative to procedure lights.

- Compact, patented, high-intensity Solarc light source
- Xenon performance at a halogen price—intense white light at 5,500K for true tissue color rendering
- Soft, flexible headband with twin ratchets for ultimate fit and comfort
- Shielded fiber optic cable stands up to demanding use

#49520 MFI Solarc Headlight System
#49550 MFI Solarc Mobile Stand

Solid State Procedure Headlight

Targeted, well-defined illumination without the heat of traditional headlights.

- Weighs just six ounces—extremely comfortable to wear for both simple and complex procedures
- Supplies bright, white, shadow-free light for true tissue color
- Rechargeable battery pack makes this a completely portable, compact unit that allows the user freedom of movement

#49020 Procedure Headlight with Direct Power Source
#75260 Portable Power Source with Charger
Welch Allyn’s complete line of women’s healthcare products helps physicians improve patient care.

You count on Welch Allyn to provide equipment that assists in delivering the very best patient care. Welch Allyn’s Video Colposcope enables you to view and capture high-resolution images through a system that was developed with the needs of your busy practice in mind. This breakthrough technology helps increase the accuracy and efficiency of medical record documentation and gives you a powerful patient education tool.

Coupling video technology with a documentation system gives you the option to include images in a medical record or store them in Welch Allyn’s image management system. Retrieving and comparing clinical images between visits delivers accurate information to help you monitor your patients over time—leading to better overall patient care.

With Welch Allyn’s Video Colposcope, you also have the option of simultaneous viewing for you and your patient, providing a unique opportunity for clinical screening and treatment education. By engaging your patient you can increase comfort and improve compliance with follow-up care.

The Video Colposcope is part of Welch Allyn’s complete line of affordable and reliable women’s health solutions.
Video Colposcope

Offer more complete care with true video colposcopy combining light, power and video for high-resolution imaging, superior diagnostics and information management.

- The direct-to-screen colposcope gives you full-screen, high-resolution images with no couplers or beam splitters to degrade image quality or field of view
- Welch Allyn Solarc® lighting generates 50% whiter, brighter light* for true tissue color
- Push-button on-screen magnification index
- Unique polarization filter removes glare for accurate tissue assessment
- Electronic green filter removes red from image with no light loss
- Store, retrieve, compare, annotate and transmit images with advanced image management

#88001A Video Colposcope with Vertical Arm Stand and Monitor
#89001A Video Colposcope with Swing Arm Stand and Monitor
#65189 Sony® UP20 Video Printer

SIMULTANEOUS VIEWING CAPABILITIES
Ideal for group participation among doctors, patients and staff.

*SUPERIOR TRUE-COLOR CERVICAL ASSESSMENT
Proprietary Welch Allyn Solarc® lamp generates light 50% whiter and brighter than any halogen light source for truer tissue color.

See page 23 for relevant CPT codes.
Optical Colposcope

High-quality Leisegang™ optics provide excellent depth of vision and clarity of focus. This space-saving design includes 3.5X, 7.5X, and 15X magnification settings with simple controls for adjusting vertical and horizontal view, and fine focus.

- Simple optical measuring reticules
- Fine focus and vertical height adjustment
- Choose from three space-saving stands

#88200 Optical Colposcope with Tilt Stand
#88460 Optical Colposcope with Swing Arm and Roller Base
#88226 Video Adapter
#65182 Video Camera

See page 23 for relevant CPT codes.
Colposcopy Image Management System

Welch Allyn’s new Image Capture System, a simple and affordable software-based imaging solutions enables you to take full advantage of your Welch Allyn Video Colposcope. Our exclusive software works directly with the Welch Allyn Video Colposcope and allows you to integrate an imaging documentation system into your existing office technology and workflow.

- Capture, review, print and export colposcope images quickly and easily
- View captured images in real time—no more waiting for hard copies to print
- Electronic image storage facilitates patient tracking and management
- Communicates directly with the Welch Allyn Video Colposcope
- Flexible, affordable and easy to use
- Images are saved in standard file formats, making them easy to integrate with an existing patient management system

#88801 Image Capture System for Desktop PC
#88802 Image Capture System for Laptop PC

“I have used the Welch Allyn colposcope with video system for seven years. Being able to show a patient what I am seeing really helps me to explain to her what I am doing.”

— LOUIS H. SMITH, MD
FOUNTAIN VALLEY, CA

MINIMUM SYSTEM REQUIREMENTS:
- 800 MHz Processor
- 256 MB RAM
- IEEE 1394 Port or PCMCIA Card Slot
- RS-232 Port (for direct communication with video colposcope)
- 20 GB Hard Drive Space (for image storage)
- Monitor 1024 x 768 resolution—256 color minimum
- Win 2000® or XP® Operating System
- CD-Rom for software installation
Electrosurgical System

This modern, mobile design consists of an electrosurgical unit, compact cart, and smoke evacuation system, that combines precision performance with operational simplicity and the highest level of patient safety.

- Isolated power output and front LED display allow precise power selection and delivery
- Microprocessor-controlled self-test mechanism, audible power alarm, and other safety features ensure accurate system operation
- High airflow and triple-stage filtration capture 99.999% of airborne particles, vapor, and odors
- Simple touch-pad controls make it easy to operate and clean
- Full line of superior-quality tungsten steel electrodes and accessories available

#88531 Electrosurgical Bundled Set with Cart
#88530 Electrosurgical Unit with Cart and Smoke Evacuator
#88537 Electrosurgical Bundled Set without Cart

See page 23 for relevant CPT codes.

“Electrosurgical loop incision of the cervix... allows for the outpatient treatment of cervical lesions with good pathology specimens and low risk of affecting childbearing ability.”
— LANCET, 1991

HANDPIECE, SINGLE-PATIENT-USE #88276
This sterile single-patient-use footswitch-operated handpiece that connects to the handpiece adapter can be used with any of our disposable electrodes.

RETURN PAD, SINGLE-PATIENT-USE #88278
These nonsterile patient return pads are used to complete the electrical circuit between the patient and your electrosurgical unit.
“Loop Electrical Excisional Procedure] has the advantages of providing a tissue specimen for pathologic confirmation of the diagnosis, technical ease of performance, inexpensive equipment, and the ability to perform the procedure in an outpatient setting.”

— EARLE U. ROBINSON, JR., MD
INDIANAPOLIS, IN

Disposable Tungsten Electrosurgical Electrodes

Our complete line of single-use tungsten steel electrodes provide optimum performance in a standard 3/32” connector shaft that can be used with most electrosurgical generators. The tungsten wire provides minimal charring and is stronger than stainless steel for superior performance.

* #88320* Disposable Tungsten Wire Electrode (medium radius 1.0 cm W x 1.0 cm D, 12 cm shaft (qty. 5)
  * #88324* Disposable Tungsten Wire Electrode (needle 0.8 mm D x 16 mm, 12 cm shaft) (qty. 5)
  * #88296* Disposable Tungsten Wire Electrode (square 1.0 cm W x 1.0 cm D, 12 cm shaft) (qty. 5)
  * #88314* Disposable Tungsten Wire Electrode (large radius 2.0 cm W x 0.8 cm D, 12 cm shaft) (qty. 5)
  * #88332* Disposable Tungsten Wire Electrode (ball electrode 5 mm, 12 cm shaft) (qty. 5)

*Bestseller electrodes. Additional electrode sizes available.

Electrosurgical Accessories

A complete line of disposable tubing, filters, and accessories to complement your electrosurgical system.

PREFILTER FOR SMOKE EVACUATOR #88288
Replacement filters for the Electrosurgical Smoke Evacuator System. Used to eliminate smoke odor.

ULPA FILTER FOR SMOKE EVACUATOR #88289
Used with the Electrosurgical Smoke Evacuator System for maximum particle capture; effective for approximately six months.

REDUCER FOR SMOKE EVACUATOR #88290
Disposable, single-patient-use reducer connects the Prefilter (#88288) with the Smoke Evacuation Tubing (#88292).

SMOKE EVACUATION TUBING SET #88292
This 6' single-patient-use tubing set completes the connection between the vaginal speculum and the reducer.
Cryosurgical Probes

Use with the Welch Allyn Cryosurgical System on page 19. Choose from 15 designs to match the individual needs of your practice.

- All probes are handcrafted and double bonded for maximum patient safety
- Interchangeable probes unscrew quickly
- Tip end material is 90% silver, 10% copper for excellent thermal conductivity
- All probes are sterilizable for patient safety

#88374 General-Purpose Probe—LT 0819
#88376 General-Purpose Probe—LT 1900
#88378 Exocervical Probe—LT 1905 (see page 19)
#88380 Exo/Endocervical Probe—LT 1910 (see page 19)
#88382 Exo/Endocervical Probe—LT 1920
#88384 Special Exo/Endocervical Probe—LT 1910S
#88386 Large Exocervical Probe—LT 2507
#88388 Jumbo Exo/Endocervical Probe—LT 2514
#88390 Curved Anorectal Probe—LT 0832
#88392 Condyloma Probe—LT 0519
#88394 Derm Bevel Probe—LT 0524
#88396 Derm Bevel Probe—LT 0823
#88398 Maxiderm Probe—LT 2500
#88400 Microderm Probe—LT 0219 (see page 19)
#88402 Soll Lash Epilating Probe—LT 0223

“Cervical cryotherapy is used widely not only because of its proven efficiency but also because of its ease of use in the outpatient setting.”

—THE JOURNAL OF FAMILY PRACTICE
JUNE 2002
Cryosurgical System

A high-quality, durable system with all the features and components you need for effective cryosurgery.

- Lightweight design with convenient trigger lock and quick defrost
- Insulated probe barrel prevents freezing of adjacent tissue
- Internal thermocouple allows monitoring of probe temperature for precise freeze performance and increased confidence
- Large probe selection plus integrated storage area for five probes
- Easy-to-read pressure gauge for fewer repeat procedures

See page 18 for a complete selection of Cryosurgical Probes. See page 23 for relevant CPT codes.
Colposcopy Instruments

A broad selection of premium instruments for optimum performance, these EuroMed® instruments are manufactured in Germany using the finest medical-grade stainless steel for the superior performance and durability you expect.

#88236 Tischler-Morgan™ Biopsy Punch, 7 mm x 3 mm
#88238 Baby Tischler Biopsy Punch, 4.2 mm x 2.3 mm
#88240 Mini Townsend™ Biopsy Punch, 4.2 mm x 2.3 mm
#88242 Endocervical Specula, 5 mm Screw/Knob Handle
#88244 Endocervical Specula, 5 mm No-Lock Handle
#88246 Endocervical Specula, 5 mm Ratchet Handle
#88248 Endocervical Specula, 4 mm Screw/Knob Handle
#88250 Kevorkian Curette, with Basket
#88252 Kevorkian Curette, without Basket

Coated Instruments

Our comprehensive line of the finest-quality electrosurgical instruments, EuroMed® and Cer-View™ rose-coated, autoclavable instruments facilitate electrosurgical procedures.

#88342 Cer-View Coated Lateral Wall Retractor—Medium
#88344 Cer-View Coated Lateral Wall Retractor—Large (not shown)
#88354 Campion Coated Forceps
#88356 Ring Coated Forceps
#88358 Tissue Coated Forceps
#88360 Two-Prong Coated Hook
#88362 Single-Tooth Coated Tenaculum
#88364 Endocervical Coated Specula, 6 mm Tip
#88366 Endocervical Coated Specula, 5 mm Tip
Electrosurgical Vaginal Specula

Designed specifically for electrosurgical procedures, EuroMed® rose-coated specula are available in Graves and Pederson styles. The Prima Series® vaginal electrosurgical specula are made of polymer, making them light, smooth, stain resistant, and highly resistant to temperature change. Both lines are nonconductive, provide a receptacle for a disposable smoke tube, and are fully autoclavable.

#88340 Prima Vaginal Specula—Large
#88346 Graves Coated Specula—Medium
#88348 Graves Coated Specula—Large
#88350 Pederson Coated Specula—Medium

—I can always tell if somebody tries to switch from Welch Allyn consumables to the cheap substitutes. They don’t fit the instruments right, and I worry about the accuracy.” —BARBARA J. CONNOR, MD

AUBURN, NY
### Relevant CPT Codes for Women's Health Products

#### CPT Codes:
- **Colposcopes (Video or Optical)**—Pages 13-14
  - 56605 Biopsy of vulva or perineum (separate procedure); one lesion
  - 56606 Biopsy of vulva or perineum, each separate additional lesion (list separately in addition to code for primary procedure) (use in conjunction with code 56605)
  - 56820 Colposcopy of the vulva
  - 56821 Colposcopy of the vulva with biopsy(s)
  - 57420 Colposcopy of the entire vagina, with cervix if present
  - 57421 Colposcopy of the entire vagina, with biopsy(s)
  - 57452 Colposcopy of the cervix including upper/adjacent vagina
  - 57454 Colposcopy of the cervix with biopsy(s) of the cervix and endocervical curettage
  - 57455 Colposcopy of the cervix with biopsy(s) of the cervix
  - 57456 Colposcopy of the cervix with endocervical curettage
  - 57460 Colposcopy of the cervix with loop electrode biopsy(s) of the cervix
  - 57461 Colposcopy of the cervix with loop electrode conization of the cervix
  - 57500 Biopsy, single or multiple, or local excision of lesion with or without fulguration (separate procedure)
  - 57505 Endocervical curettage (not done as part of a dilation and curettage)
  - 57513 Laser ablation
  - 57520 Conization of the cervix, with or without fulguration, with or without dilation and curettage, with or without repair; cold knife or laser
  - 57800 Dilation of cervical canal, instrumental (separate procedure)
  - 59200 Insertion of cervical dilator (e.g., laminaria, prostaglandin) (separate procedure)

#### CPT Codes (cont.):
- **Cryosurgical System**—Page 19
  - 56501 Destruction of lesion(s), vulva; simple (e.g., laser surgery, electrosurgery, cryosurgery, chemosurgery)
  - 56515 Destruction of lesion(s), vulva; extensive (e.g., laser surgery, electrosurgery, cryosurgery, chemosurgery)
  - 57061 Destruction of vaginal lesion(s); simple (e.g., laser surgery, electrosurgery, cryosurgery, chemosurgery)
  - 57065 Destruction of vaginal lesion(s); extensive (e.g., laser surgery, electrosurgery, cryosurgery, chemosurgery)
  - 57501 Destruction of lesion(s), vulva, simple (e.g., laser surgery, electrosurgery, cryosurgery, chemosurgery)
  - 57505 Endocervical curettage (not done as part of a dilation and curettage)
  - 57513 Laser ablation
  - 57520 Conization of the cervix, with or without fulguration, with or without dilation and curettage, with or without repair; cold knife or laser
  - 57800 Dilation of cervical canal, instrumental (separate procedure)
  - 59200 Insertion of cervical dilator (e.g., laminaria, prostaglandin) (separate procedure)

#### Diagnostic Equipment Including:
- **Kleenspec® Disposable Specula**—Pages 4-6
  - 99201 New patient—office visit level 1
  - 99202 New patient—office visit level 2
  - 99203 New patient—office visit level 3
  - 99204 New patient—office visit level 4
  - 99205 New patient exam
  - 99211 Established patient—office visit level 1
  - 99212 Established patient—office visit level 2
  - 99213 Established patient—office visit level 3
  - 99214 Established patient—office visit level 4
  - 99215 Established patient—office visit level 5
  - 99241 Office consultation for new or established patient 1
  - 99242 Office consultation for new or established patient 2
  - 99243 Office consultation for new or established patient 3
  - 99244 Office consultation for new or established patient 4
  - 99245 Office consultation for new or established patient 5
  - 99275 Confirmatory consultation for a new or established patient; presenting problem(s) are of moderate to high severity
  - 99395 Established Patient—Periodic comprehensive preventive medicine reevaluation and management; 18-39 years
  - 99396 Established Patient—Periodic comprehensive preventive medicine reevaluation and management; 40-64 years

#### Electrosurgical System—Pages 16-17
- 56501 Destruction of lesions, vulva, simple (e.g., laser surgery, electrosurgery, cryosurgery, chemosurgery)
- 56515 Destruction of lesions, vulva, extensive (e.g., laser surgery, electrosurgery, cryosurgery, chemosurgery)
- 57061 Destruction of vaginal lesion(s); simple (e.g., laser surgery, electrosurgery, cryosurgery, chemosurgery)
- 57065 Destruction of vaginal lesion(s); extensive (e.g., laser surgery, electrosurgery, cryosurgery, chemosurgery)
- 57100 Biopsy of vaginal mucosa; simple (excision)
- 57460 Colposcopy of the cervix with loop electrode biopsy(s) of the cervix
- 57461 Colposcopy of the cervix with loop electrode conization of the cervix
- 57510 Electrocautery of cervix
- 57522 Conization of cervix, (“see and treat” procedure replacing biopsy, also use if previous biopsies done and conization is indicated.)
- 99070 Supplies and materials for kits and electrodes

#### Pulse Oximetry (Spot Vital Signs®)—Page 9
- 94760 Noninvasive ear or pulse oximetry for oxygen saturation; single determination
- 94761 Noninvasive ear or pulse oximetry for oxygen saturation; multiple determinations (e.g., during exercise)

---

**A Word About the Coding Information Contained in This Catalog**

Listed throughout this catalog are references to codes from the Current Procedural Terminology, Fourth Edition (CPT®). Please note that the coding information contained here is neither conclusive nor does it ensure that you will be successful in obtaining coverage and/or reimbursement from government and private payers. Depending on circumstances that will vary from patient encounter to patient encounter, separate reimbursement may or may not be allowed for use of a Welch Allyn product used during a specific procedure or service. Use of the product may be included in the reimbursement for Evaluation and Management services provided by the physician. Please check with the specific payer to confirm whether or not the use of a separate code is acceptable. Welch Allyn does not assume any responsibility for the decisions made by payers regarding payment for procedures involving our devices when the coding information suggested in this catalog is used. You will find that the CPT codes are listed without descriptors within the main section of the catalog. Please refer to this page for a full listing of the codes and their accompanying descriptors before determining if the code is suitable for submission on a claim to a payer.
